Loss Drafts

SUI offers flexible, turnkey loss draft solutions to accommodate servicer preferences and regulatory requirements while delivering a less stressful borrower experience to further lender relationships.

Our deep experience with virtual inspections often saves time to resolution while being a convenience factor for property owners.

Clients benefit by outsourcing the handling of loss draft processing to SUI as it is both time and labor intensive, particularly if higher dollar or complex claims are involved. Specializing in this niche space also requires knowledge of changing insurance regulations, investor guidelines, check handling, reasonable repair estimates, damage inspections, and constant communication with contractors. You can leverage our Loss Draft expertise as a stand-alone solution or as part of an integrated tracking and insurance program.
